

ENVIRONMENTAL POLICY

We will ensure that all of our activities are conducted in accordance with sound environmental practices which prevent pollution. Our environmental performance will be continually improved. Parkinson-Spencer Refractories Limited will operate our processes to prevent pollution.

This policy provides a framework for setting and reviewing environmental objectives and targets which relate to: -

- Minimising the consumption of natural resources and energy, and in all areas of its activities.
- Reducing the creation of waste by the adoption of improved operating practices and by the recycling of materials whenever practical.
- Ensuring all waste and effluent is disposed of in a safe and responsible manner.
- Investing in the development of new products and processes that have a lower environmental impact.
- Fully complying with all appropriate environmental legislation and other associated requirements.

Parkinson-Spencer Refractories Limited aims to work with its supply chain partners and business stakeholders to ensure an understanding and appreciation of its environmental issues.

By this policy Parkinson-Spencer Refractories Limited recognises its responsibilities toward protecting the environment, and issues this statement as a commitment of both management and employees to minimise the environmental impacts of its operations.

This policy shall be made available to the public via our website.
